(Instructor Text/Memo)

 Heejin, Yoon Instructor

- Heejin took time to explain homework concepts to me when I was confused which allowed me to complete the homework assignments and learn real estate financial concepts.
- Heejin was very accessible outside of class and helped me understand concepts that I did not understand. I really enjoyed Heejin.
- Heejin was an extremely helpful TA throughout the semester. He was always able to answer any question and help with homework. He wants to make sure we understand the material and succeed.
- Heejin was one of the best TAs that I have had at this University. He went above and beyond to support me in and out of office hours and I am so thankful for that. He truly cared about teaching me concepts and was always willing to explain the material over again if I needed it. We both had very busy schedules but he was always flexible enough to find time to meet. Heejin knows a lot about real estate and if he ever didn't know an answer to a question, he would follow up with more information. He was someone who went above and beyond his job description!
- N/A
- I did not interact with Heejin much. He gave some feedback on my assignments, but not every one. He would reply quickly to emails, and I saw him for office hours about once or twice, where he was helpful. He was a good TA.
- Mr. Yoon is an excellent instructor. He always had a positive attitude and made himself available, no matter how busy both of our schedules were. Multiple meeting were held late and night, but there was no complaining; he enjoys what he does, which greatly improves the learning experience.
- I didn't have class or meet Heejin but he's responded to all of the emails I've sent so I appreciated that.
- Heejin went absolutely above and beyond to facilitate my learning in this course. I was able to express my concerns about the course because math has never been my strong suit and he made me feel like I really understood the material. He was always willing to meet. He knew my preference was to meet one on one and he met me on weekends or early hours to make sure I got the help I needed. He truly changed my experience in the course and made me feel confident in finance like I never have before. He explained concepts so clearly and he always made sure I understood. He was the best TA I have ever had and I really can't express how much he helped me and had a positive impact on my experience.

(Text/Memo)

- I knew this course would be challenging, but I was expecting to get more out of lectures.

- I enjoyed this course a lot. The content is very interesting, and I feel as though it is extremely useful for me, both in what I want to do and simply for my future life as an adult. Overall, it was good.
- I would have liked Mr. Yavas to include more material from his personal work experience. He worked for Turkey's Central Bank...it wouldn't hurt to deviate from traditional course material to provide insight that literally only he can provide.
