12 Please provide comments related to this **instructor**: What was done well? How could the **instructor** improve?

(Instructor Text/Memo)

👤 Heejin, Yoon Instructor

- Heejin is always helpful and patient, one of the best TA I have met.
- So nice a person! Always with quick feedback and incredible patience. Have learned a lot from him.
- provided help with courses and class materials whenever needed.
- He helps a lot.
- Heejin is very warmhearted and helpful, with his help I learn a lot in the course. He can also be a good teacher.
- N/A
- He was the most responsive and caring TA I have ever met throughout my undergraduate/ masters education. He was willing to help even in the topics that were not directly related to the course. Moreover his tremendous help in my capstone research also has helped me to excel both in this course and in my other courses. He is the ideal form of educator I desire to be.
- It's very helpful
- Great source for communication to help clarify questions.
- Respond quickly to students' questions
- Heejin was very influential to the overall classroom environment. He has helped us provide all the information to get through the coursework, and used his time for the students to be fully immersed in the learning environment. He has been really helpful in general, not just about this lecture but all the aspects for real estate studies. Thank you!
- Very enthusiastic as well as attentive, send alot of e-mails to inform us.Wish he would have done the demo more slowly in class.

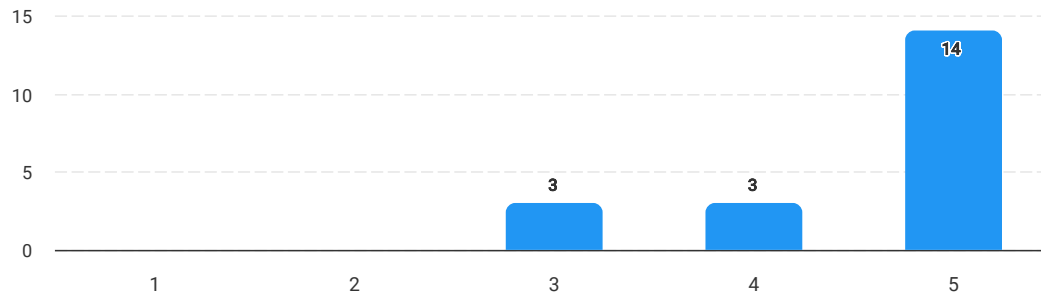

13 Overall, where would you place this **course** compared to your other university **courses**?

14 Please provide comments related to this **course**: What was done well? How could the **course** be improved?

(Text/Memo)

- The class was interesting but too simple though. I hope to hear some real cases how people improve their cities' urban economy, no matter there was a success or a failure.
- Theory, industry insights and empirical practices, all embeded together. Can not be better.
- Not yet.
- I really like the course it's not that hard and do not put much pressure but i gained a lot
- More relevant assignments to learn the material every few modules
- More interaction and review of what we learned. Some concepts were taught on Monday and 25% of an exam the next class period.
- This course has let me join the field experience from a different department, which helped me to gain a notable amount of insight. The poster session and group presentation is a very rewarding experience as well. Thank you for all the resources and experiences you guys have provided throughout the course.
- The class is very good. Only because my busy schedule, wish I could have more time to talk to Prof. Deng and our TA Heejin.
- Urban economics focuses not only in a real estate perspective but also the allocation of resources from micro to macro economics. This course was helpful for us to analyze how urban real estate correlates with the determinants of the market. For the next year students, it would be best to see more real life case studies related to the studies!
- To do research on Madison's development
